Report 4.10 - Clinical Law Programme at Law Clinics
The main challenges faced by clinics during 2013

ID	Law Clinic	main challenges in terms of the clinical law programme
1	UKZN Law Clinic Durban	1. It is not always possible to have a one–on-one consult between student and client given the large number of students. 2.This is heightened when clients fail to turn up, therefore resulting in a simulation being done
2	Univen Law Clinic	We do not have enough personnel to supervise the students as well as accomodation as students are many to be accomodated in our smal offices.
3	Nelson Mandela Metropolitan University Law Clinic	1. Lack of resources - computers, adequate telephone services and budgets, finance in general 2. Lack of office and consulation spaces for all students at relevant times
4	North West University Community Law Centre	Shortage of staff.
5	Rhodes University Law Clinic	Appointment of permanent attorneys.
6	UCT Law Clinic	Students don't attend lectures. Always busy with the core courses and hampered by how much hours legal practice takes. Not enough drafting built into existing curriculum. Inviting 'relevant' professionals can be problematic from administrative point of view.
7	University of Johannesburg Law Clinic	Too many students Too few attorneys No messenger Attorneys expected to act as messengers and do all court appearances as well as attending to the students and clients No sustainable funding model for the Law Clinic's running expenses.
9	North West University Law Clinic	Time allocation and student to lecturer ratio.
10	University of Pretoria Law Clinic	None.
11	UWC Legal Aid Clinic	
12	Wits Law Clinic	Lack of permanent positions/ longer contracts for clinicians Demans to produce research and publication Funding Staff to student ratio
13	Legal Aid Clinic - Stellenbosch University	Enough hands to properly supervise students
14	UFS Law Clinic	The lack of personnel makes it impossible to accommodate students at the clinic and we therefore make use of externships for practical training.
